New Release learningBOX 2.24

learningBOX2.24 is now available.

Shared server

■Manage contents

AI assist	AI will generate a course by the uploaded video and PDF. A generated course should include a quiz/test, headings, prerequisites and more.
Confirmation when moving a content	A confirmation message will be shown when a content is moved to another course/folder. This should prevent users from moving to a wrong course/folder.
Basic information	Basic information including thumbnail images and titles can be set for each course/folder/content.

■Manage scores

Notification	You can manage the recipients of score management notifications.

■Message

Direct message	Admin can send direct messages to users. Images and PDFs can be inserted.

Options

■Manage scores

Check scores	Previous scores of invalid users can be checked.

EC Special license

■eCommerce

Account billing	Order history can be exported to CSV file.
