

## [Important] Action Required Regarding the New "Manage contents"

Following the recent renewal of the **"Manage contents"** feature, we would like to provide instructions regarding **important actions required by our customers**.

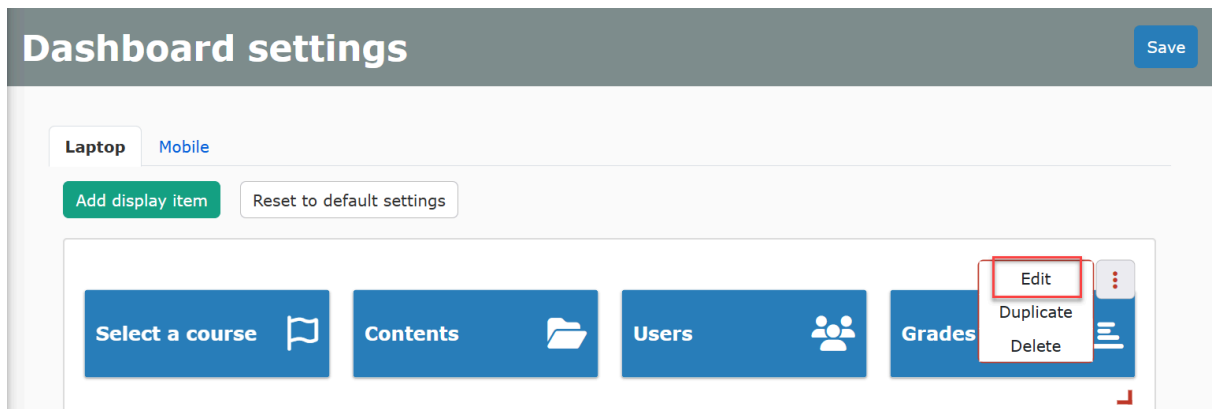

Please adjust your settings as necessary according to your specific operational needs.

### 1. Update Dashboard URL Settings (Action Required: All Customers)

1. Go to the Dashboard  
Click on Edit.

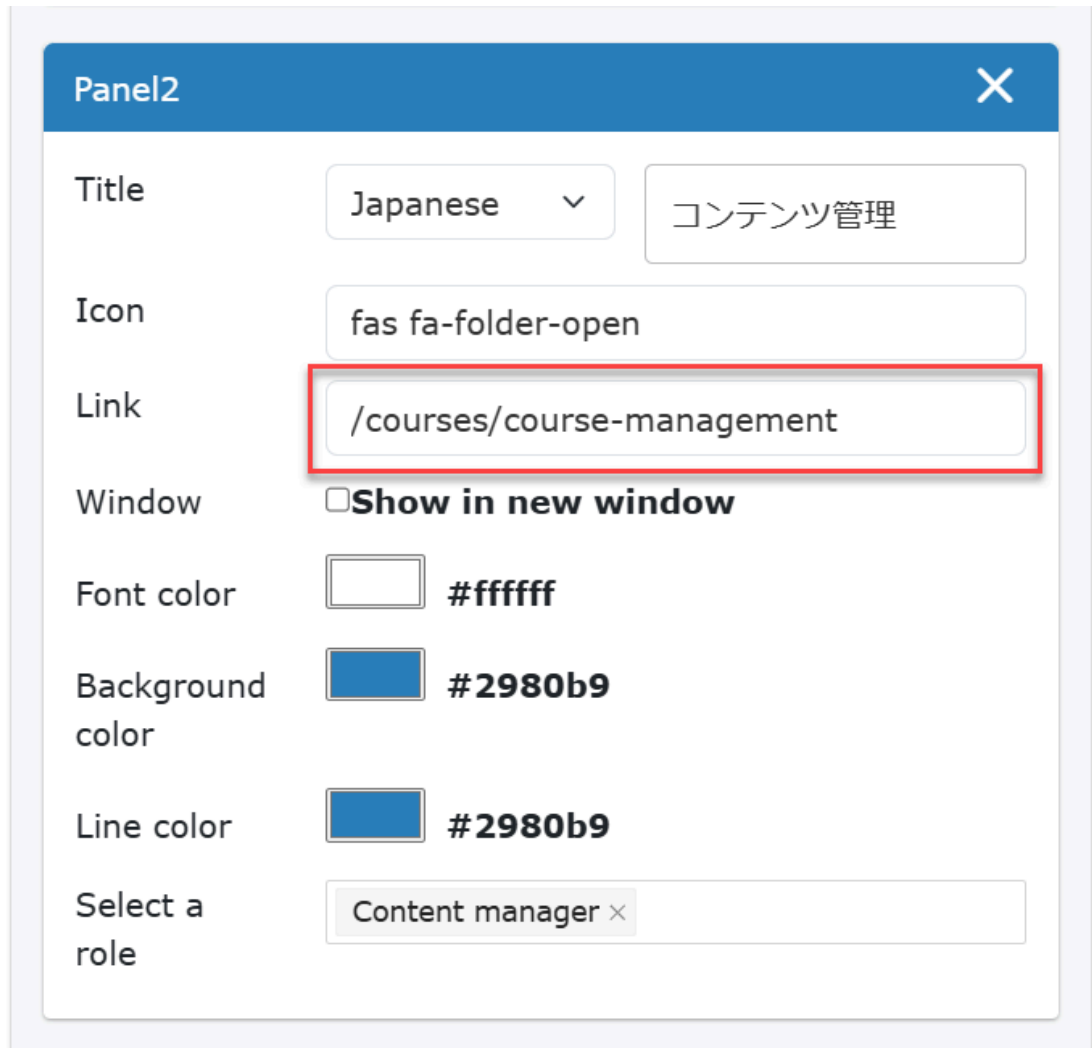

2. Edit the panel  
Click on the icon and select Edit.

3. Edit link  
Paste the link `"/courses/course-management"` on the Contents panel and save the

settings.

The image shows a settings panel titled "Panel2" with a close button (X) in the top right corner. The panel contains the following settings:

- Title:** A dropdown menu set to "Japanese" and a text input field containing "コンテンツ管理".
- Icon:** A text input field containing "fas fa-folder-open".
- Link:** A text input field containing "/courses/course-management", which is highlighted with a red rectangular border.
- Window:** A checkbox labeled "Show in new window" which is currently unchecked.
- Font color:** A color picker showing a white box and the hex code "#ffffff".
- Background color:** A color picker showing a blue box and the hex code "#2980b9".
- Line color:** A color picker showing a blue box and the hex code "#2980b9".
- Select a role:** A dropdown menu showing "Content manager" with a close button (X).
