Report assignment

Writing Questions on Exam

Writing questions are also easy to create using the Report assignment feature, and teachers can grade them with feedback through effective grading steps.

A Wide Variety of Submission Types

Simple Grading Steps

learningBOX will score questions for you. Improve your performance to give more tailored feedback to students.

Assignment name	Submission date	Name
Report	2024-01-15 16:12:08	Angus Coen

Save Time on Grading

Grade list can be exported to an Excel file. Also, uploading the edited file to learningBOX will make it faster to grade writing questions in bulk.

Grading Request

Grading requests can be sent to Grade manager(s). Notifications will be automatically saved in the Email history.

API Integration

Powerful API Management for Large-Scale Project

Centralize data management with API integration. External core system integration with learningBOX will enhance your management performance, without login to multiple systems. Grade and student data migration will also contribute to increased efficiency and simplifying time-consuming tasks.

*Customization is required.

For Higher Performance

API will provide flexibility such as SSO (Single Sign-On), data migration including accounts, groups, test results and more.

How do APIs help?

Key 1.

SSO (Single Sign-On)

You can use the login credentials of Google or Microsoft365 to log in to learningBOX.

Key 2.

Integration of Student Account Data

Student data including accounts, grades, classes and groups which are registered in the school management system can be integrated into learningBOX.

Key 3.

Grade Data Migration

Some grade data on learningBOX can be automatically integrated into your school management system.

Key 4.

Automated Content Assignment

According to the course completion on the school management system, content can be automatically assigned on learningBOX.

※API integration requires system development on the school management system.

Organize Online Courses

- ✓ Teaching Materials
- ✓ AI Assist

Make in-house content development easy

With learningBOX, you can upload ready-made content or create your own content.

learningBOX is a solution to customise your online course as you like.

<SCORM Compliance>

learningBOX is compliant with the SCORM standard.

iSpring and Adobe Captivate can be used with learningBOX.

Teaching materials

① Memorization

Create memorization cards (flash cards) and improve your memory.

② Videos

Double speed playback, prevent skipping and more options are available.

③ PDFs

Just upload PDF files to add textbooks, manuals, newsletters and more.

④ Web page

This function allows you to share URLs, insert images and texts.

⑤ Show/Hide workbook

Switching show and hide words will assist you to memorize words.

⑥ Attached file

You can upload data and have your learners download various files.

⑦ Report assignment

This helps educators easily score and give feedback.

⑧ Typing

Create typing content to improve learners' typing speed and accuracy.

⑨ Embedded content

Import and embed iframe materials including YouTube and Google Slides.

⑩ Questionnaire

Get feedback from learners at the end of lecture, webinars or courses.

⑪ Certificate

Certificates can be issued from templates of your original design.

⑫ Score chart

Gradebook will be created from the record of learning.

⑬ PowerPoint

Import PowerPoint file as e-learning content.

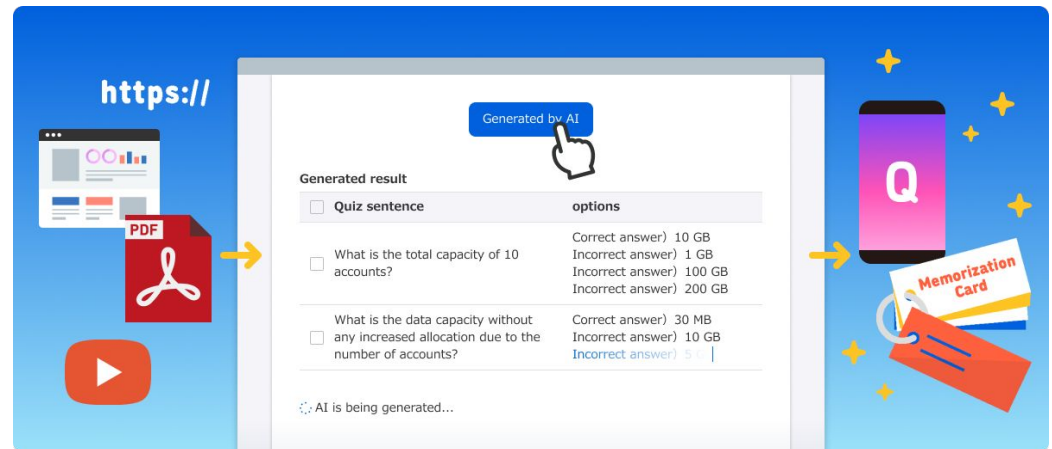

⑭ Personality

Create your own personality test, and share the results with candidates.

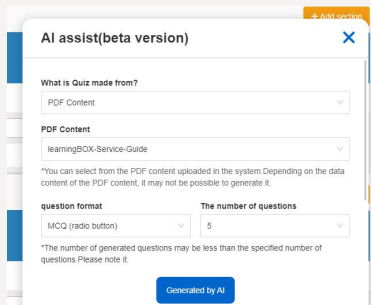

ChatGPT-API/AI Assist

Free up your time with AI assist Auto creation and assessment support

Our AI assistants can help you develop quiz content and evaluate writing assignments, which tends to consume a lot of time and effort. Now, use the AI assist to manage your time effectively.

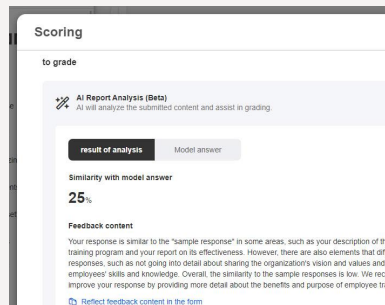

How does AI help you?

1. Content Generation

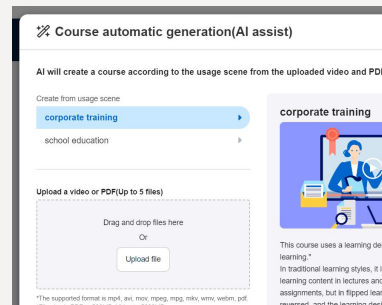

AI automatically generates a quiz/exam from a video, PDF, text and URL uploaded on learningBOX.

*Content cannot be generated from video subtitles.
*Depending on the material and input, errors may occur and content may not be generated, or the generated results may not be accurate.

2. Report Assignment Analysis

AI analyzes report assignment based on model answers and automatically generates feedback comments. This reduces the time spent on evaluating writing assignment, which used to be a time-consuming task.

3. Course automatic generation

Even if you have never designed an e-learning course before, AI can automatically generate a course based on the learning design from your videos and PDFs.

Try AI Assist for Free

Number of Free Trials

1. Generate quizzes/exams, memorization cards
 - Video: up to 30 times
 - Non-video content: up to 100 times
2. Report Assignment Analysis
 - Up to 300 times *Previewed analysis included
3. Course Generation
 - Up to 10 times

Smooth Transition to a new LMS, ICT in Education at Universities

Even with only a week to go, the transition went smoothly, with user registration taking only a few minutes.

Professor Bruce Lander

Dean, Language Communication Graduate Course, Matsuyama University

Professor, Faculty of Humanities, Matsuyama University

Research area: ICT in education, blended learning, formative assessment, professional development methodology called Lesson Study, and cross cultural communication.

I received a lot of positive feedback from my students in the survey on the lecture.

Challenges

- There were several technical failures in previous LMS.
- The large content catalogue made me reluctant to switch an LMS.
- Time was limited to learn new services.

Solutions

- The transition time was short and the execution smooth.
- Registration and customer support was far better than previous LMS.
- learningBOX's service fits my budget.

A Perfect Match in Continuous Learning during Pandemic

Teachers' passion for education made it success to deliver their creative online content to students regardless of unexpected school

Doshisha Elementary School

Established in 2006, it has committed to fostering a conscience, emphasizing the process of learning to find answers on one's own. Also the school has been making efforts to nurture global human resources who can understand diversity across national and racial borders.

Video content plays an important role not only for students but for parents to support learning at home.

Challenges

- Urgent solutions were required to ensure a learning environment during the pandemic.
- Teachers had little satisfaction toward the former system including data storage and the usability.

Solutions

- Learning opportunities maintained even during the pandemic.
- Schedule/newsletters can be shared with parents online.
- learningBOX is easy to use for teachers, students and even parents.

Robust Learning Management System for Online School

More than 192 hours of workload reduced by automation with APIs

Renaissance High School Group

Employees: About 8,000 (As of February, 2024)

(Renaissance High School, Renaissance Toyota High School, Renaissance Osaka High School)

Business Details:

1. Planning and management of online high schools
2. Planning and management of Renaissance Japanese Language School (Formerly Japanese Center)

learningBOX offers all features which online schools need, and it improved our work efficiency.

Challenges

- Required a systematic evaluation process that aligned with the curriculum guideline.
- Wanted to deliver level-appropriate assignment to students.

Solutions

- Developed new functionalities with learningBOX to meet requirements.
- Providing more personalized content to meet the level of students.
- Time in registering users and modifying content was drastically saved.
