

learningBOX

Service Guide

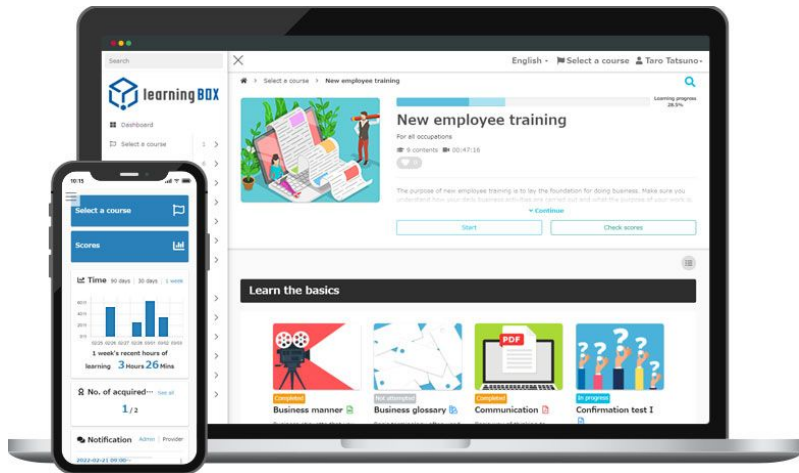

Organize online courses

- ✓ Teaching materials
- ✓ Web quizzes/tests
- ✓ AI assist

Make in-house content development easy

With learningBOX, you can upload ready-made content or create your own content.

learningBOX is a solution to customise your online course as you like.

<SCORM Compliance>

learningBOX is compliant with the SCORM standard.

iSpring and Adobe Captivate can be used with learningBOX.

Teaching materials

① Memorization card
Create memorization cards (flash cards) and improve your memory.

② Videos
Double speed playback, prevent skipping and more options are available.

③ PDFs
Just upload PDF files to add textbooks, manuals, newsletters and more.

④ Web page
This function allows you to share URLs, insert images and texts.

⑤ Show/Hide workbook
Switching "show and hide" words, it will assist you to memorize words.

⑥ Attached file
You can upload data and have your learners download various files.

⑦ Report assignment
This helps educators easily score and give feedback.

⑧ Typing
Let learners compete for typing speed and accuracy like a game.

⑨ Embedded content
Import and embed iframe materials including YouTube and Google Slides.

⑩ Questionnaire
Get feedback from learners at the end of lecture, webinars or courses.

⑪ Certificate
Certificates can be issued from templates of your original design.

⑫ Score chart
Gradebook will be created from the record of learning.

⑬ PowerPoint import
Easy import PowerPoint file as e-learning content.

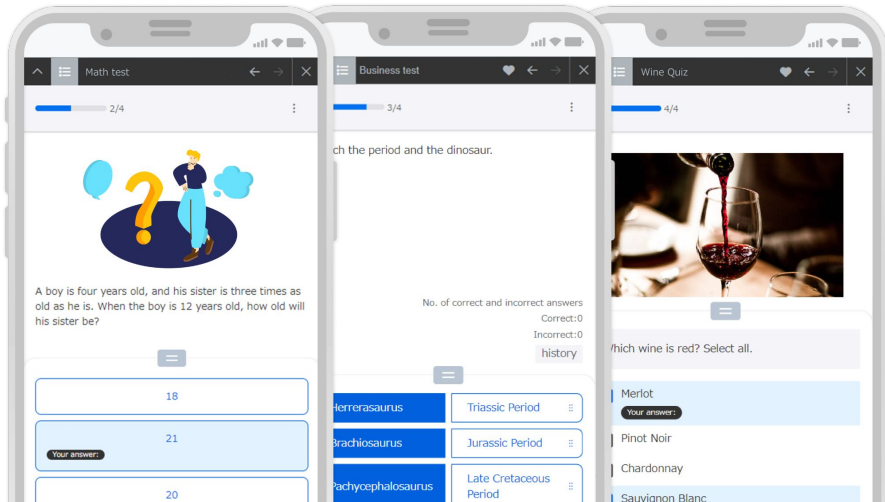

⑭ Personality Test
Create your own personality test, and share the results with candidates.

With 13 types of quiz, accelerate your creativity.

No special skills are needed.

Our quiz formats will help you create full-fledged quizzes/exams in a few steps.

Purpose of Quiz

When does the school year begin in your country?

April

July

September

① MCQ (button type)

Choose an answer out of multiple choices.

Lions belong to the cat family.

True

False

Type a short answer.

⑪ Multiple short answers

Type multiple answers.

⑫ Short answer+

Type multiple answers in any order.

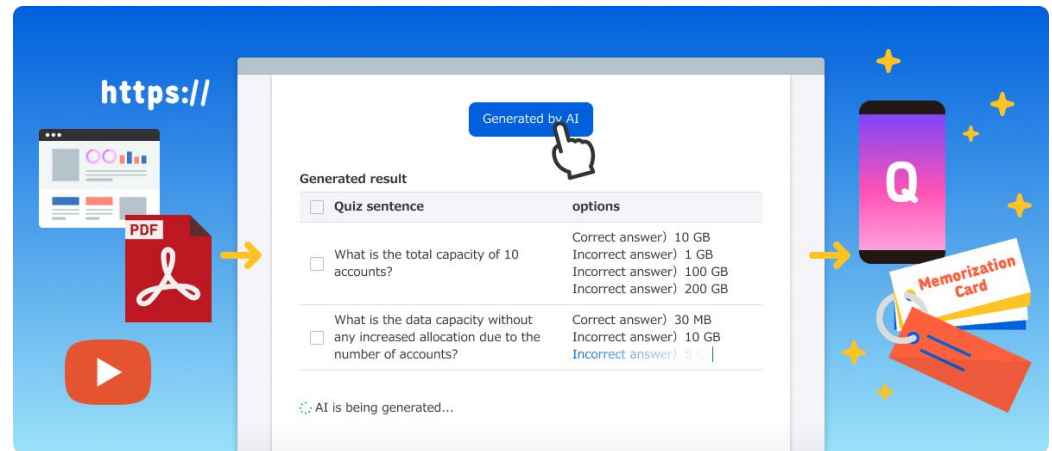

⑬ Pull-down menu

Select an answer from a list.

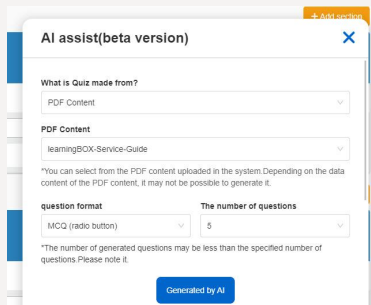

ChatGPT-API/AI Assist

Free up your time with AI assist Auto creation and assessment support

Our AI assistants can help you develop quiz content and evaluate writing assignments, which tends to consume a lot of time and effort. Now, use the AI assist to manage your time effectively.

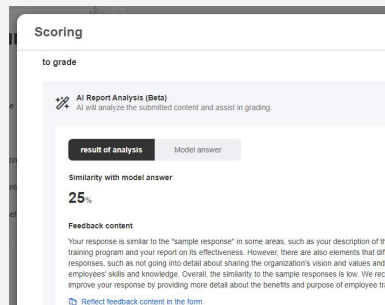

How does AI help you?

1. Content Generation

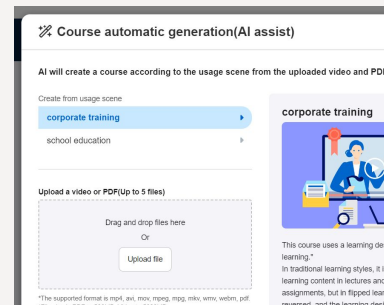

AI automatically generates a quiz/exam from a video, PDF, text and URL uploaded on learningBOX.

*Content cannot be generated from video subtitles.
*Depending on the material and input, errors may occur and content may not be generated, or the generated results may not be accurate.

2. Report Assignment Analysis

AI analyzes reports based on mock answers and automatically generates feedback comments. This reduces the time spent on evaluating writing assignment, which used to be a time-consuming task.

3. Course automatic generation

Even if you have never designed an eLearning course before, we can automatically generate a course based on your learning design from your videos and PDFs.

Try AI Assist for Free

Number of Free Trials

1. Generate quizzes/exams, memorization cards
 - video: up to 3 times
 - non-video content: up to 10 times
2. Report Assignment Analysis
 - up to 100 times *Including the number of times the analysis is previewed

Increased work efficiency and productivity by switching a LMS to learningBOX

L&D processes improved since we created review tests and HR trainings.

PayPay Bank, Ltd.

Number of employees: 512 (as of February 1, 2022)

Business Details:

Development and provision of various products and services that take advantage of the features of Internet banking

More practical training courses can be created now. It is also used for personnel surveys that require confidentiality.

Why learningBOX?

- An LMS was introduced more than 10 years ago, but the UI/UX was outdated and difficult to use.
- There were few patterns for role settings on the previous LMS we used, and the system was not operating smoothly.
- Types of quizzes/tests was not enough.

Effects and solutions

- Easy to use for both students and admins with **an intuitive UI**.
- Detailed authorization settings have led to **operational efficiency**.
- **More than 10 different types of quizzes** solved our challenges.

[Click here for details of case studies](#)

Cost-cutting succeeded in increasing the level of learning with learningBOX

Easy and efficient score management features helps reducing our workload.

Tokyo Gas Co.

Number of employees: [Non-consolidated] 5,958 (as of March 31, 2022), [Consolidated] 16,697 (as of March 31, 2022)

Business Details:

1. Energy solutions
2. Network
3. Overseas
4. Urban business

Quiz format makes it fun to learn and motivate employees even difficult content

Why learningBOX?

- The company already had an e-learning system in place, but was considering replacing it because some aspects of its operation were not running smoothly.
- It was time-consuming to analyze the score results internally by department or group.

Effects and solutions

- **Cost-cutting** and ensure smooth operations.
- Extract only the necessary portion of the scores, **reducing the time required for analysis.**

Successfully implemented compliance trainings for influencer marketing

Compliance training through e-learning to reduce risks.

UUUM Co.,Ltd.

Number of employees: 572people (As of the end of May 2025)

Business Details:

1. management support for a wide variety of influencers and creators, including Japan's top-class YouTube creators
2. plan construction through multifaceted solutions such as social networking, event planning, influencer casting, etc.
3. creator training
4. game application development

I think the training has been as effective as face-to-face training.

Why learningBOX?

- Group training is not possible due to the COVID-19.
- Cost of training venue for several hundred people, transportation for participants, and other expenses are high.
- To motivate creators to participate in training.
- It's an important mission to ensure compliance, so we want to make sure it gets to the participants.

Effects and solutions

- Online training for non-interpersonal, cost saving.
- Easy-to-use system does not discourage students from taking courses.
- Combination of video + testing to make the content more memorable.
